—1980—ECHS—REUNION—1990—

A.G.

For what is time?

Who can easily and briefly explain it? Who even in thought can comprehend it, even to the pronouncing of a word concerning it? But what in speaking do we refer to more familiarly and knowingly than time? And certainly we understand when we speak of it; we understand also when we hear it spoken of by another.

What then is time?

If no one ask of me, I know;
if I wish to explain to him who asks, I know not.

Time is like a river made up of events which happen, and its current is strong; no sooner does anything appear than it is swept away.

-Saint Augustine

Ten years. So little time, so much time.

A thousand life spans of a flea, and yet an inconsequential measurement of world history. Strange, this time. We look ahead ten years and time crawls like a heavy-shelled tortoise. We look over our shoulders at time and the years bound out of vision like rabbits. Did anyone of us, freshly diplomaed, idealistic and naive, ever consider the years so tangible, so slippery, and impossible to grasp?

This short gasp of years. For some, the time since graduation has been rich. We congratulate you. Show us your laurels, your children, your business card, your spouse, or your bank pass-book. For some, the decade brought failure. Share your pain, your disappointments. Others still hold on to high school with absolute fondness. During the reunion, share with us, in full color, what we have forgotten. Bring us back momentarily. Dredge up old love, embarrass us, make us laugh about past time. Then for Pete's sake put the past away and get on with your lives. You graduated ten years ago, remember?

This book. About the ten years since we were last together. There are a lot of people who deserve credit for pulling this together - Marge Waun, Yolanda Chrapko, Randy VanKooten, Jim VanderMeulen, Marian Groot, Annie Melenberg, Karen Gelderman, Brian and Carmen Los. Thanks!

They had ten years to pull this project off, but time passes so quickly, you know. Look. The pages are still wet with ink. Have fun reading this book. A lot of effort went into it; a lot of years are in it.

Read. Read! So little time.

—Jim VanderMeulen

1980 - Do you Remember...?

It seems so long ago, doesn't it? What were we like and what was life like back then? We forget so easily in this fast-paced world.

Do you remember when...?

- stores were closed on Sundays
- Arab terrorists took over the Iranian embassy in London
- Cec Purves was mayor of Edmonton
- the government was hammering out a new constitution
- Peter Lougheed was premier of Alberta
- it was the Oilers's first season in the NHL
- Pierre Trudeau was prime minister
- "The Shining", "Kramer vs Kramer", and "Coal Miner's Daughter" were the hit summer movies
- Jimmy Carter was president
- Edmonton got the High Level waterfall
- Oxydol was \$3.69 for a 6-litre box
- Construction studs were \$.69 each
- the Edmonton Journal was \$.25
- Grade 12 - Biology Trip, Contact Canada and Graduation

That was then. Today, we are together again for a brief time to renew old friendships, to share memories and to celebrate God's goodness towards us.

Teresa Vanderkooi (VanderVeen)

Four most important things I've done:

- travelled to Europe twice, California and lots of camping
- I got married to my highschool sweetheart in 1982
- We have three great kids, Alisha (6 1/2), Chelsea (5) and Kyle (3)
- I'm doing what I always wanted to do - "Get married, have kids and stay home". I babysit in the home because I love kids and do enjoy the extra money.

Fondest highschool memory

Grade 10 - The Grade 12 guys

Grade 11 - 12 spares a week

Grade 12 - Going to the park with Bruce, Phil, Ken & Jeannette

Favorite Song:

1980 - Supertramp - "Crime of the Century"

1990 - Billy Joel - "We Didn't Start the Fire"

Plans for the Future:

I want to live happy and healthy with my husband and kids.

Katlyn L. Debree

I often forget that 10 years have passed since we haunted the hallowed halls of ECHS. Time has flown! I'm sure that more than a few of us have grown in more ways than one!

Important things that I have done over the past 10 years:

- a) Made friends with and cared about people from all political/financial etc. spectrums - from housewives to politicians and in that sharing have become a better person
- b) Completed my B.Comm at the University of Alberta
- c) Was standing in the bleachers after 5 months of volunteer work when Audrey McLaughlin was elected the first woman of a national political party in North America
- d) Am the Manager of finance and administration of Bridgehead Inc., the trading arm of Oxfam Canada, and drive an Audi.

My fondest high school memory is standing next to Elaine Kitchen, both of us with guitar in hand, leading wonderful singsongs in the mountains of Jasper National Park on the Biology Trip in Grade 12.

My favorite song in 1980 was "Raise a Little Hell". Now, it's a toss up between "Revolution" by Tracy Chapman and "Flying on your own" by Rita McNeil sung by Anne Murray. A close third is "Wind beneath my wings" by Bette Midler.

My plans for the future: I tend to dream a whole lot - must be the piscine in me...

- to see Bridgehead achieve a solid financial base so it can increase development in the Third World
- to travel to Africa / Southeast Asia / South America
- to become an elected member of parliament
- to live in and do financial development work in a 3rd world country

So, there they are, my contributions. As you can see I've loved the past 10 years and can't wait for the next 10.

Marge Waun (Groenendyk)

The four most important things that I've done in the past 10 years are:

- 1) Getting my licenses in the following things: Hairstyling, Make-up Artistry & Aesthetics.
- 2) Having my first son, Shaun, July 4, 1982. Having my second son, Kyle, March 23, 1989.
- 3) Marrying Kent Waun on Sept. 28, 1988 in Lake Tahoe.
- 4) Teaching in a private Hairstyling School and doing the make-up (for a model) for a major magazine.

Fondest memories of school:

Probably the friends that were there; Ger and Yo. Remembering some of the crazy things we used to do. I remember us telling Anie M. that the fire alarm was broken in the gym because the glass stick was missing. So finally she went and pulled it. Of course, it wasn't broken. My fingers felt like they were broken after making fire posters for a week.

Future Goals:

To get my teaching degree and to teach highschool or to open my own hairstyling school. To be there for my family.

Ann DeBruin

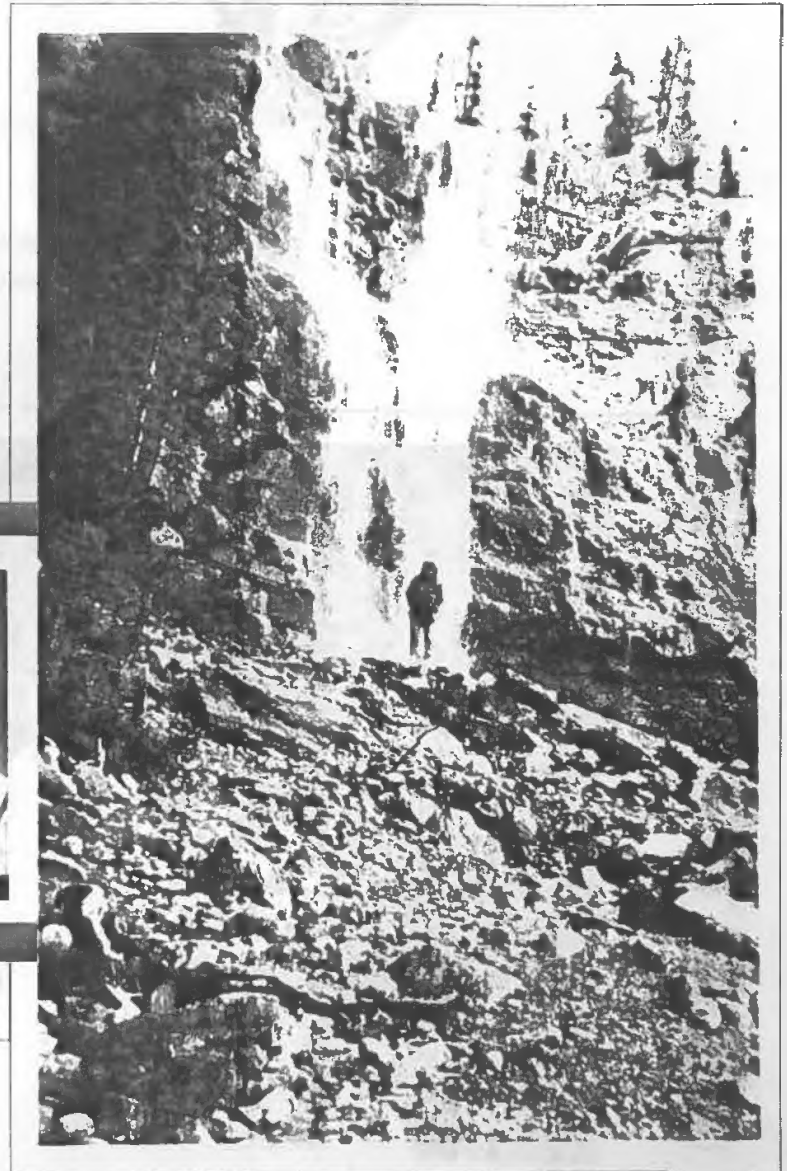

The most important things in my life in the past 10 years have been motherhood, education, and personal growth & development.

I have a wonderful daughter Jessica, who is my pride and joy.

I went back to school and now work as a interior designer.

I've grown as an individual and expanded my horizons, a lot of that development as a result of the responsibilities of being a single parent.

A good part of the past 10 years have been hard work (no regrets) so my goals for the next 10 years are to spend more time on myself, travel extensively, and have more fun.

Elly MacGowan (Lindemulder)

Hello Everybody.

Graduation Day 1980 seems like an awfull long time ago. After that summer I started working for Safeway in the Meat Department.

In January 1983 I went travelling with my sister Debby for 5 months. We went to Hawaii, Australia, and Fiji. That was a great experience which I will always remember.

I am still working for Safeway, but am now managing the Deli Department.

In 1987 I met Laurence, who also works for Safeway. We fell in love, and on June 3, 1989, we were married. It was a perfect day.

All in all, life has been great, and I think it's only going to get better ...

Mike VanderGutche

Memories of high school days have begun to fade away, but enjoyable ski trips still come to mind (both with and without the school).

Other than that, I'm still unmarried, live in Chelmsford and work for Falconbridge Limited as a geologist.

See you this summer.

Tim Klingbeil

Four most important things that I've done:

- Studied Engineering
- Got out of Engineering
- Moved to Banff
- Bought a ski pass

Fondest memory of high school:

Not getting caught for everything

Favorite song in 1980: "Can't take my eyes of of you."

Favorite song in 1990: "Can't take my eyes of of you."

Future plans: Any day above ground is a good day.

Ed Bootsma

The four most important things I've done in the past ten years are:

I bought a new truck in 1980. Then in 1981 I met a girl named Bernice and we were married a year later. We were blest with three beautiful children, Christine (7), Joel (5) and Vanessa (2). We spent most of our years in Saskatoon, then Calgary for a year, and now in Edmonton working for the government on a four and a half year term.

My fondest memory of high school was Drafting class, and also being part of the Beverly Bums when cycling to school.

My future goals are to become a Heavy Duty mechanic and to practice the trade in Southern Alberta or B.C.

Of the Songs I really enjoyed in 1980, there was none. I enjoyed most of the songs that were on the radio then and it also goes for 1990.

Monica DeWit (Zeldenrust)

Here is the info you requested for the reunion book:

1) After our grad I was accepted into the Dental Hygiene program at the U.of A. and graduated in 1982. I began working in private practice and a few months later married my one true love in August of '82. I was asked to become a clinical instructor at the University in '83 and worked both positions until our move to "lotus land" (Vancouver area) in '87.

My present labor of love is my most challenging yet as full time homemaker and mom to Amanda (5), Stephanie (3), and Wesley (1 - D.V. by the time of our reunion).

2) My fondest year of high school was grade eleven, when I participated in all sorts of school related activities (see yearbook). But grade 12 had some best and worst of times which made it memorable too.

3) Pachebel's Canon was my favorite piece of music then and now it is Handel's Messiah. As you can tell, I wasn't much of a "rocker" then or now.

4) We are hoping to have our 6,000 sq.ft. green house complete and a crop of exotic vegetables started by the spring of '90, but a move back to "Edmonchuk" is not out of the question.

Marian Groot

After twelve years of filling my brain with knowledge and learning how to make responsible decisions, I still was unsure about what events would take place in my life after high school. One thing I knew is that I couldn't live without some sort of cash flow so I jumped at the first job that came my way. An extremely repetitive, redundant clerical desk job, and in two days I knew what I didn't want to do.

After doing the painful job for one entire year I made the quick decision to enter the U of A School of Nursing and got accepted by luck alone. Two and a half years later I graduated and took the first nursing job I could find.

I worked for three months and made more money than I had in the last three years. So what better thing to do than take a four month trip to Europe with Karen Gelderman. Upon my return to reality, I worked in several positions in nursing and in 1986 had a keen desire to make more trips and spent 7 months in Australia, New Zealand and S.E. Asia.

Again went back to nursing and at the same time pursued this love relationship with Wendell Gelderman which resulted in marriage in 1987. I felt since I had a husband to support me I would go back to school. I obtained a BScN at the U of A.

During that time practiced poor birth control and had Hannah Karen in May 89. Currently I am working in Community Health and paying my dues and putting Wendell through school.

Future plans are anything that comes up that looks good for the three of us.

Grenda Kuipers Witten

Has it been ten years already?! Most of the kids I teach at East Edmonton Christian School were born in the year that we graduated.

I'm in my seventh year of marriage to the person I walked out of church with at the Grade 12 graduation, so I guess the Biology Field Trip rates as a fond highschool memory.

My appetite for travel was whetted in Highschool through the French Language Study Program in Quebec and Contact Canada. In 1987 Ralph and I travelled through Europe for almost ten weeks.

We have a son named Marlow. He has added a new dimension to our lives, giving us new challenges and hopes for the future.

Ralph Witten

I find it next to impossible to summarize (even in my own head) what I've done over the past ten years. I suppose the most obvious thing is that I've been in school for a good part of those ten years. I've also done some teaching and some travelling. And Grenda and I have a one-year-old son.

Most of my high-school memories are rather foggy; I think I like them that way. I do have fond memories of biking across the city to the high school during morning rush-hour. We used to race in a pack of seven or eight, taking up an entire lane.

Future Plans? I've always wanted to hike the Skyline Trail in Jasper.

Ken Dykhuizen

Important Accomplishments:
Hitchiking to California with Rick Brandsma

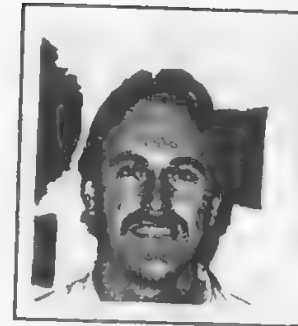

Highschool memory:
Graduation

Songs:

Past: "We Don't Need No Education" - Pink Floyd
Present: "Rockin' in the Free World" - Neil Young

Future Plans:

Settle down and raise a family (maybe)

Marion VanDerVeen (Werkman)

Four most important things I achieved so far:
Finishing Grade 10 and going to Hairdressing School. I got my license and am now a Partner in Business.
Married in 1982 to John VanDerVeen. Have 2 children, Wesley, age 4, and Nicole, age 8 months.

Fondest memory in highschool is a ski trip to Silver Summit and when Sylvia and I would play practical jokes and not count on getting caught.

Favorite songs in 1980 were by Supertramp, now, in 1990 my favorite band is Milli Vanilli.

My goals for the future is to travel more and continue running Abby Road Hair. Our goal as a family is to build a house on an acreage.

Rick Brandsma

1) 4 most important things I've done in the past 10 years.

- In 1988 I got married to a beautiful girl who used to go by the name of Cyndi Hrynyk.

- I returned to school in 1985 and graduated with distinction in Computer Programming & Analysis. I not only received an education, but I began a career, and most of important of all I met my wife.

- One of the best experiences I've had is hitchhiking down the coast all the way to L.A. with Ken Dykhuizen when we were 19.

- In November of 1989 my wife and I moved to Grande Prairie after I accepted a job with Proctor & Gamble.

2) Fondest high school memory

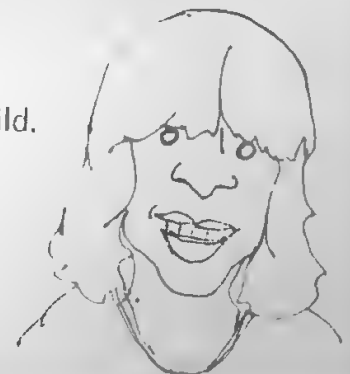

- Rob Messelink's hair.

3) Favorite song in 1980.

- In 1980 my favorite song was Hotel California by the Eagles, and it still is.

4) Plans for the future:

- My wife and I want to settle down in Grande Prairie and raise a family. Cyndi's due in July with our first child.
- We would someday like to buy a house in the country.
- Win the Tour de France.

Anne Nicolai (Schuring)

In the past ten years I have done alot.

I have travelled and lived in Hawaii for a year. While I was there I went on a course or an Evangelism seminar in L.A. After one year on my own I found out I had become my own person. I grew to be more open and to stand up for what I thought was right. A little while later I met my husband Malcolm Nicolai, we were married on Nov. 9, 1985. I worked for Alberta Health Care for the first while after, then I had my first child Jean Sandra, born March 16, 1987. The following year we had a boy, Walter James born June 6, 1988. I am now working in my home doing baby sitting so that I can be with my children.

While I was in school my fondest memory would have to be the Contact Canada trip, and also my biology class, we had a great teacher.

I had no favorite song then, nor do I now.

My plans for the future are to stay home and raise my family. When they are in school I hope to go back to work.

Jacqui VanKampen (Lenten)

It seems like just yesterday that I graduated, but it has already been 10 years! They have been a good 10 years.

After High School I worked at Alberta Health Care for about 6 1/2 years. In 1982 I went to Hawaii with Ann, Trudy, and Sonja. Then in 1983 I went to the Bahamas with Joanne. In 1983 I met John and we were married in 1985. In the fall of 1987 we had Jessica and in Spring 1989 we had Jason. We live in a beautiful log house by the lake. We have just bought a house 5 minutes south of Spruce Grove and hope to move in on March 30, 1990.

My fondest memory of high school would have to be the Biology Trip and Contact Canada.

As for my plans for the future, enjoy life to its fullest with my husband and kids and pray that the Lord will bless us as He has blest us.

Gwen Hollaar

The four most important things that I have done or the landmarks in my life over the past 10 years is difficult to pinpoint. So much happens in the course of 10 years... I suppose the time I spent studying at Calvin College stands out as one landmark. I really enjoyed attending a Christian college: participating in stimulating discussions with friends and professors, developing close friendships, singing in Handel's Messiah, being challenged to develop a Christian world and life view and having fun in the process.

Another important event in my life was my trip to Swazilan, Africa, where I worked for twelve weeks as a medial student intern in a mission hospital. It proved to be a very challenging experience. I saw alot of healing and alot of death, both of which had a powerful impact on me.

Another landmark in my life was when I FINALLY completed medical school at the UofA and passed my boards in the Spring of 1989. Medical school was a tough four years. It felt fantastic to be a "graduate" after spending the bulk of the past ten years as a student. At present an important part of my life consists of my work as an intern at the Grey Nuns Hospital. It's been demanding, but it has also been a positive experience.

As far as my plans for the future are concerned, it's one big questions mark. I first have to complete my interning, and then I hope to spend some time working in the Third World as a health worker. Beyond that, only time will tell.

I unfortunately cannot isolate a "fondest highschool memory". High school as a whole is a fond memory. Being active in school plays, basketball, student council, participating in our numerous group projects, going for coffee during spares, informally chatting with the teachers, going on the biology field trip and Contact Canada '80 --- all are highlights. Ultimately, it is the people, fellow students and teachers, that makes ECHS a fond memory for me.

Jim VanderMeulen

Encapsulating my life, I conclude somewhat sadly, that though my aspirations have been mammoth and manifold, I have spent the decade ridiculously splayed-legged, with one foot in the lecture hall and the other on the construction site. Immediately after high school, I went to the King's College. For one and half years. But all those vampirous books, papers, and critical professorial remarks left me drained. I turned my back to academia and framed townhouses in Millwoods and Castledowns. I made this drastic career change during the coldest Edmonton winter on record. I learned that framing requires a stout heart and good circulation, not to the cerebrum, but to the glutinous maxims, which continually peeled in red itching layers throughout the hideous cold winter. On the pretext of not being "fulfilled" with the life of banging together houses but secretly having been conquered by Edmonton's frigidity, I quit framing. I once again turned to intellectualism at the King's College for warm respite, then went on to finish a degree in Philosophy at Calvin College. I look back at this period in Grand Rapids with particular fondness though I had few friends and American Midwest conservatism drove me absolutely bananas. Perhaps nostalgia is generated by memory of an endless supply of so uncannily cheap intoxicants, or a fight at a Reagan Rally, or a wild tour of Chicago.

I eventually left USA and rejoined Edmonton's population, being metamorphosed by Calvin College's intellectual cocoon, not into a spectacular butterfly, but an ugly drooling deluded know-it-all. A know-it-all because I had learned a few things at school and thought I knew more than most people; deluded because I thought I would be more marketable with a B.A. in Philosophy than was actually the case. Ugly and drooling because it sounds so literary and melodramatic. With this B.A. in hand, I eventually got a job as a finishing carpenter, hanging hundreds of doors for the rich and powerful in downtown Edmonton. This work eventually lost its appeal. After a year and a half of door hanging, I decided to go back to school and get a Masters degree in English. I went to the University of Alberta, and after dozens of English courses, I almost finished my MA, short a half course and a thesis. This time, I did manage to produce a few pieces of literature myself, published in obscure magazines that very few people would wish even to search for.

In 1988, half way through this final bout of intellectualism, I married Geraldine Van Vliet. She taught me there is life beyond grand posturing and theory, books and libraries. I am very happily married, and if I may be so bold to assume, so is Ger. Ger teaches at West Edmonton Christian School. I am once more engaged in acts of carpentry.

My time straddling the lecture hall and the construction site leaves me with fleeting memories of Robert Herrick's two line poem, "Her Legs" and the over rich cream of Shakespeare's Sonnets, and also some pieces of furniture that we sit on and eat off.

Jack Winkel

The turning point in my life came the summer of '79, after finishing Grade 11. My marks spoke clearly the message to my parents, and it was not in to Grade 12 the next year, it was definately N.A.I.T. I can't tell you how happy I was. That was the best thing that happened to me in 11 years! And that was only the beginning. The next month I bought my Trans Am, the car I had been dreaming of for the last year. I must have put on at least a thousand miles the first week, taking the Long Way Home with Supertramp.

Then in 1990 I met Jo-Ann at one of the many parties I went to. Five years later, we married. Since then, I've become a licensed heavy equipment mechanic and continue to work for Cam-Am Roadbuilders. Jo-Ann went on to become a legal secretary and works for Parlee McLaws downtown. We bought a house in the Westend which has been home for the past 6 years, with our old Sheltie named Rusty.

My future plans include a trip to the Kennedy Space Center, several well-deserved fishing trips to northern Alberta, building the fastest motor, and sitting in the Boss' chair. Oh, and if you're wondering what happened to the Trans Am, I still drive it!

Sandra Dykstra (Dykhuisen)

1) The four most important things I have done in the past ten years are;

- my marriage to Jerry Dykstra and our 2 children, Shawn and Miranda
- watching our new house being built and moving into it.
- my job as a school bus driver
- travelling on the VIA Supercontinental train, through the mountains, to Vancouver, B.C. to visit relatives.

2) Fondest High School memories:

- Grade 10 Ski Trip
- flat tire on my car going to the Citadel Theatre
- good times during English and French class

3) Favorite song in 1980:

"Old Time Rock and Roll" by Bob Segar & The Silver Bullet Band
Favorite Song, Now it is - "Broken Wings" by Mr. Mister

4) My plans for the future are:

To travel around the world and especially someday go on a Caribbean Cruise.

Karen Gelderman

Looking back over 10 years and trying to boil the thoughts and observations down to a few significant phrases is like putting on all the clothes I ever wore during that time, looking in the mirror and finding only a few words to describe my appearance.

Casually listing work, education, and travel experiences sounds too much like a job resume, but I would like to leave something on this page to give an impression of who I am, where I've been and where you might find me in another ten years.

I've been in Edmonton for all but the few months that I've traveled and worked elsewhere. I went to King's College and the UofA and graduated with a BFA, in painting, drawing and sculpture. My most rewarding jobs have been working with immigrant and refugee youth, cooking for a tree-planting company in the bush, and as a caregiver for a young handicapped girl. In the fall of 1990 I will be in Fredericton, NB., to complete an after degree program in Education. My intent is to teach high school Art/French and beyond that I imagine that one day I will get the chance to work overseas.

My journey so far as a woman, an artist and a Christian has seen both joy and pain, exhilarating moments and uncertain hours but there's been much there for me to learn with the encouragement and love of family and friends, and I will continue with urgency and patience to discover my place in this creation.

Vera Vandenberg

Lots of things have been happening in my life in the last ten years. I will try to pick out the highlights. After graduating from high school, I took one year of Pre-Vet. Med. at Concordia College in Edmonton. I kicked around for a year and then went for 2 years to Lakeland College in Vermilion to become an Animal Health Technician. Then I worked for a while on a dairy farm before going to spend 8 1/2 months working for 2 farms in New Zealand, on the International Agricultural Exchange. Travelling, especially living and working in another country is a wonderful learning experience. Then after working in Edmonton and Calgary for a year or two (for a while as a sales rep for Winthrop Animal Health Products) I moved back to Vermilion and eventually decided to start my own business. In the fall of 1987 I opened a bookstore, "The First Page". (Books have always been one of the great loves in my life, right up there with horses!) This has truly been a learning experience. Being your own boss is certainly not all that it's cracked up to be.

This spring (1990) the retail store will be closed out, and I will then be selling strictly horse books by mail order through horse magazines, just as a sideline. I am hoping to work for someone else, for a regular paycheck, hopefully with horses or at a vet clinic. I have lots of memories from my years at high school, some fonder than others. What pops up in my mind every once in a while is Mr. Sneeep's "AHA" experiences. You know, when something suddenly clicks in your mind and makes sense out of confusion. That's what John Sneeep used to call an "AHA" experience. Still, when that happens to me, I think of Mr. Sneeep and highschool biology!

My taste in music has changed alot. I seem to remember my favorite in 1980 being "The Kid is Hot Tonight" (Loverboy). My current favorites are (I couldn't decide on just one) "the Gift" (the McCarters) and "What a Wonderful World" (Louis Armstrong) I think living in a small town where every radio is set to CFCW might have something to do with it. (or maybe it's a sign of aging!)

And what can I say about my future? I have met a wonderful fellow, Bernie deJong, a farmer, and we have some beginnings of some plans for building a future together. He has 3 sons from a previous marriage (who live with him) so it looks like I may be doing the ready-made family thing, and maybe becoming a full-time "Farmer Brown".

Other than that, I plan to continue indulging my love of horses and books (and maybe even make some money at it, sometime!) and hopefully live happily ever after.

Fran Wolthuis (VanderLinden)

- 1) Married Andrew Wolthuis. We have a 1 year old little boy.
Moved to Toronto for 2 years.
Did some travelling within Canada.
- 2) My favorite high school memory is the Biology trip.
- 3) 1980: Supertramp - "Breakfast in America" 1990: Elton John - "Sacrifice"
- 4) Andrew and I hope to continue to expand our horizons either in Edmonton or elsewhere.

J. Andrew Wolthuis

- 1) Graduated from NAIT in Construction Engineering Technology
Married Fran VanderLinden
Spent 2 years in Ontario working and having fun.
Had a little baby boy who turned into a big, big baby boy.
- 2) Fondest High School Memory: Biology Trip Geology Hike
- 3) Favorite Song 1980: Pink Floyd - "The Wall"
1990: Phil Collins - "Paradise"
- 4) Fran and I hope to continue to expand our horizons either in Edmonton or elsewhere.

Deb DeVries (Wamsteeker)

The four most important things that happened to me over the last 10 years are in order as follows:

I traveled Europe with Jenny DeVries for six weeks

I studied at Grant McEwan Community College for two years and graduated with a diploma in Fine Art.

The three jobs I've had were:

- A claims Approver at London Life Insurance Co.
- A lab technician at Plastic Contact Lens Co.
- Apprentices as a lab technician in a dental lab.

I am now married, living on a mushroom farm in Aldergrove, B.C. My husband is William DeVries. I spend my time raising my two rambunctious boys. Alex is three and Steven is two.

Fondest high school memories:

The day we biked to school and stopped for coffee instead of going to first class. We rubbed our hands over our bike chains to get them good and greasy and then told Mrs. Versluys we had bike trouble. We were automatically excused.

I also enjoyed going to SunWah restaurant with the old gang. And it was also a good day in high school when I succeeded in getting Rob M. and Ron B. kicked out of Plantinga's English class (this was enjoyable).

My favorite song in 1980 was "Breakfast in America" by Supertramp. I enjoy a wide variety of music and have no favorite song for 1990.

My plans for the future are to eventually go back to school and either continue my studies in Art or study another line of work. See you in August!

Jeannette Van Rootselaar (Borst)

Married Henry Van Rootselaar Sept. 5, 1981

Children: David Kory - June 21, 1984

Melanie Chantelle - Jan. 27, 1986

Steven Allen - Jan. 6, 1988

After high school I worked at the House of Light as a salesperson for three years. Then my husband and I were Resident Managers of an apartment complex for 3 1/2 years. For the last four years I have been running a home daycare. I really enjoy being home with my kids.

My husband is a journeyman plumber and gasfitter at Academy Mechanical. We have traveled to Hawaii and really enjoy camping.

Favorite high school memory - Biology Trip

Favorite music then: Supertramp- Breakfast in America

Favorite music now: Tom Petty - Full Moon Forever

Future plans:

To have a happy and healthy life with my husband and kids.

Sharon Postma (Dykstra)

Wow, 10 years ago we graduated!

Memories of high school?

The waterfight that ended up in the girls washroom on the Grade 12 Biology Field trip. Going to Quebec for 6 weeks on the French program summer of '79. And then of course the Contact Canada Trip. Somehow I can't seem to remember much of what we studied formally! Wasn't there a song out at that time that went something like. "we don't need not education, we don't nee no thought control, hey teacher, leave those kids alone!" What a contrast to what I play at home now, kid's tapes!!! or the local AM station with elevator type music.

Things that have happened since 1980?

Lots. I worked for a couple of years and then got married in 1983. Moved to Kitchener, Ontario in 1986 and had our first child that same year. My mother passed away with cancer in 1987 and in 1988 we had our second child. I thought Ontario would be the last place I'd ever want to live, but now that we've been here awhile, we really enjoy it, acid rain and all. (just kidding)

Plans for the future?

Nothing definite at this time. We are well taken care of at the moment and have been richly blessed. Perhaps in the future we will return to the west, since that is where both of our families are. For now we just have large long-distance phone bills.

Travel, nothing exotic, but we have managed to get away in the winter a couple of times to warmer climes. What a treat! Boy, I sure wish I could be there for the reunion, it would be nice to see everyone. Oh well, maybe in another 10 years?

Linda Sorochan (Brander)

Four most important things I've done in the past 10 years:

- Graduated from Chemical Technology at NAIT
- got married to Wade
- became a mother of two daughters, Charlene & Kendra
- got involved with coffee break at our church two years ago, as a leader

Fondest HS memory:

Contact Canada

Favorite Song in 1980: too many to name

Favorite Song in 1990: too many to name; enjoy mostly Christian music

Plans for the future:

Enjoy life with family and friends, do some travelling, maybe go back to school.

Jenise D'Agostini (DeHoog)

Most important things I've done

- several vacations full of fun & sun.
- got married and built our first home.
- gave birth to our first child, Stephanie.

Fondest high school memory:

Seeing Mrs. Versluys' face every time we made up an excuse for being late and knowing she didn't believe a single word.

Favorite song in 1980:

"Anything" by April Wine

Favorite song in 1990:

"No Sacrifice" by Elton John

Plans for the future:

Finish building our second house and hopefully do some more travelling.

Leo Ludwig

1) Got married, had three kids.
Realized that there was a lot more to life than
Edmonton and the people that I knew there.
On a lighter note, I had a great experience
running with the Olympic Torch in Feb. 1988.

2) Favorite memory: All the great parties.

3) "The Logical Song" - Supertramp "I'm in the Mood" - James Lee
Hooker

4) To settle down in the Red Deer area, build my own dream home in
the country and raise my family the right way and not be as naive as
most of our parents were about what went on in our lives.

Nancy Goutbeck (Brandsma)

Over the last ten years, each year gave me good memories. The ones that stand out are:

- paying cash for my first car after a long and tedious job.
- married John in August of '84 and went on an extravagant honeymoon to B.C.
- buying a house on an acreage on a large piece of land which just happens to be adjacent to the family farm.
- 2 beautiful children - Kyla in October of '87 - Jesse in January of '89 Another child to be born in May of '90. I hope to survive with 3 kids under 3 years of age. Presently I'm staying home with my kids and enjoying it. John is a service manager for a computer company.

High school gave me two good memories which of course would be Contact Canada and the other

one would be "Graduating".

Paying off our mortgage in a few years is a future plan of ours and hopefully to go on a nice trip somewhere, someday.

Tom Oostenbrink

1) I met my wife, Corrie, on April 7, 1981 and we were married on April 20, 1985. We bought a house on April 25, 1988 and our son, Jesse B., was born August 24, 1988. For five years I worked in construction and now I work at Ronald's Printing in the Pre-press department.

2) My favorite memory is Contact Canada.

3) "The Wall" by Pink Floyd. Now is "He's Alive" by Don Fransisco

4) Build my own home, take my family to Disneyland.

Brian Los

Well, 10 years have past. How quickly it goes. It seems like only yesterday that we got our I.D. pictures and lockers assigned. Attending concerts like Doucette, Styx and ABBA, and the Biology Field Trip - blowing a tire and finding out that my spare doesn't fit. Thanks again Dolores (she also drove a Dodge). The school plays, what a blast. Parties and more parties. Camping in B.C. with Randy and the boys. And Contact Canada, who can forget that.

Well that was the start of my travel bug and thankfully when Carmen and I got married in 1983, she also loved to travel, so to Hawaii, Europe and Mexico we went and lots of camping throughout B.C. and Alberta. I love travelling and would love to do it full time, so many interesting people and places to see.

But back to reality, after High School I took landscaping for a few years, then worked in Northern Alberta for a Mechanical Contractor. But with marriage comes responsibility so off to NAIT I went and took two years of Mechanical Engineering Courses. And for the last five years I've been the Building Operator of a seniors' retirement home. I find this work to be both challenging and rewarding. I love working with seniors, they're so fun and are like walking history books.

My favorite song in 1980 was "Old Time Rock and Roll" by Bob Seger. Now I enjoy many different kinds of music from rock to classical and even some opera, if you can believe it.

Anyway, I've had a wonderful 10 years and I hope God will continue to guide me throughout the next 10, together with Carmen.

Carmen Los (van den Berg)

When I graduated from high school, there were so many things that I was so sure I'd be writing about in the 10-year reunion book. I had such clear and definite goals about who, what and where I wanted to be.

In recording the past ten years to myself, however, I realized that I haven't attained any of these "significant" accomplishments, but have rather gained a lot of knowledge about who I am, what I am capable of, and what is important to me.

It has been an exciting journey of experiences and learning. I've had many different jobs, ranging from costume designing at local theatres to marketing in a supercomputer company. My formal education has taken the same sort of incongruous path — ranging from pre-med to fine arts.

The most consistent thing in my life since Grade 12 is Brian. After going out for four years, we were married in August 1983. We share a love of travelling and have been given several opportunities to do so. Our most memorable trip was in 1985 when we spent 9 weeks together, travelling through Europe by train. I thank God for giving me someone that is both a partner and friend, someone that is allowing me to be an individual as well as half of a couple.

My hopes for the future are numerous. I'd like to have children, pursue a career in fine art, spend more time with Brian, family and friends, take piano lessons, read. Most especially, I hope that God will grant me the patience to let His plan for me unfold.

Luke Terlaan

I've been framing for about 8 years and am a Journeyman. But I got tired of framing so I gave it up for a career in Electronics. I'm presently taking Electronics Engineering at N.A.I.T. I'll be finished in August. After that I've got another half year of Avionics (Aviation Electronics). I'm looking forward to working for an airline or possibly even Cold Lake Air Force Base. I plan to travel but I haven't yet!

FONDEST HIGH SCHOOL MEMORY.

Well Jane DeVries, Ken Velsink and I always had a lot of fun in Mrs. VanderZee's class. One time I shot a paper airplane at her while she was writing something on the blackboard. The plane hit the board right beside her head. There were other great times but I don't think I should print them.

PLANS FOR THE FUTURE.

I'd like to work on the Hi-Tech planes, do a lot of traveling, get married and raise a family, possibly move someplace else.

Maarten Pereboom

I graduated from Calvin College with a Bachelor's Degree in History in May 1984. That fall I started a doctoral program in History at Yale University in New Haven, Connecticut. I plan to graduate from that program with a PhD in the spring of 1991.

I met Ruth Baker, in her senior year at Yale, in the Fall of 1984. We got married in June 1986 in New Haven. Right now she is a student in a Master's program at the John F. Kennedy School of Government at Harvard.

We spent the Fall of 1987 and the Spring of 1988 in Europe, where I did research for my dissertation. We were in London in the Fall, and Paris in the Spring. In the Summer of 1988 we traveled through Europe, as far east as Hungary and Czechoslovakia.

This year I'm teaching history at Calvin College, while Ruth finishes up at the Kennedy. Spending a year apart is hard, not something we want to repeat.

Netty-Anne Cupido

4 most important things I've done in the past ten years:

- completed a B.Ed degree at the U of A, major in French, minor in music
- taught at West Edmonton Christian School from Sept. 1984 - June 1989
- trip to Europe in 1985
- I'm presently employed at the Harcourt Art Gallery as a Public Relations Assistant

Plans for the future

- go back to university and take additional courses in Art Education, specifically children's art education ,art history, physical education
- teach in a foreign country

Fondest High School memory

- doing French skits with Marianne Debbink (now DeBoer)
- Gr. 12 Biology Campout
- being involved in the production of the school play "The Skin of Our Teeth" by Thornton Wilder

Annie Melenberg

Hello Everyone!

Oh how ten years have flown - haven't they?!

I find myself living in Vancouver and am enjoying the many and new experiences that come along with it. Living Inner-city Edmonton was one of the things I can say was major in my life. The community and friends I found there were very significant. Travelling Europe with Karen Gelderman and Yvonne Van Vliet was a trip not to be forgotten(ever) and as well my own travels there. Presently, I work as an office manager for a social services agency, which is an eye opener and proves to be very rewarding.

Pondering my high school years I cannot pinpoint one specific incident that I would say is MOST memorable. All three years were good and carry a lot of memories, due in part to the people I shared them with, which seemed to be half of the High School.

Future plans? Well, I hope for more of the same and maybe one day to own property on one of the Gulf Islands or the Foothills of Alberta. But that is all left in God's hands, as I live my life one day at a time. Hope you all have an enjoyable time at the reunion and wishing you well in your future endeavors.

ANNIE G. MELENBERG

Wendy Werkman (Huizinga)

I've been married for six years to Melvin Werkman, and we have two children. Elizabeth is 2 1/2, and Michael is 15 months old.

As for travels, I've been to Hawaii, and camped my way from St. John's Nfld. to Ottawa. I've also been through most of the Upper States, spending a lot of time in Chicago perusing shopping centers!

My working career started with a receptionist job for a property management company, and then a move to the Edmonton Fire Department payroll section, which was my second home for the next five years. I was determined to reach a higher level of management, and received a promotion to City Hall's Finance Department. As Melvin was in a pre-seminary program at Calvin College, we moved to Grand Rapids, Michigan. That meant a whole new line of work - being a nanny and a housekeeper. Now back in Canada, my children are my line of work!

My fondest high school memories are (of course!) Contact Canada, fooling around with the tape machine in French class (sorry Mr. VanderGrift!), and the Herme's Pizza Gang.

"Armageddon" by Prism was my High School favorite, but it's been replaced by "Skin-a-ma-rinky-doo" from the Elephant Show. Who has time to listen to current hits??!!?

Future plans include a possible return trip to school to take up Architecture - and maybe writing a book detailing our never-boring life!

Dave Haarsma

Since leaving school I have worked on the family farm. Our farm is located just west of Edmonton and we produce wheat, barley, oats, canola, hay and certified seed.

My travels include a 3-week trip to Brazil and Argentina in 1986 and a CFF tour to Mexico in 1987.

I married Carol deLeyer on November 21, 1987. We were blessed with a tiny baby girl, Robyn, on July 27, 1989. We are members of Covenant CRC and we live in a mobile home on our farm.

My fondest memory of highschool probably was just being able to socialize with friends.

Some of my future plans are:

- continued work on the farm
- building a house
- filling the house with kids!?
- scoring 50 goals in 39 games

Rich Bosma

The most significant things that have happened to me in the past ten years would have to start off with a special day in August of 1983 when I married Kimberly Roy.

The next most important thing that happened to us was finding out that we would be parents. In October 1984 we were blessed with a healthy son, who we named Trevor Roy. Two years later in November 1986 we were again blessed with a daughter, Nicole Alicia Kimberly.

Before getting married, I bought a house in St. Albert and after 6 years we decided to sell and fulfill our dreams of living in the country. In June of 1988 we bought a farm just a few miles north of Morinville and presently we have a beef and grain farm. We are really enjoying the farm and country life. I also am presently working for the City of St. Albert in the Pest Control Department as a licensed Pesticide Applicator.

Our future plan is that one day we could expand our farm and that it could create enough income to one day become a full-time farmer, but until that day we will continue to work towards our dream.

I really have no favorite songs from the past or present but my fondest memories would have to be the many friends, girls, parties and the sports which I really miss.

Fred Woudstra

Following high school I worked for 4 years and then got the school bug again. I attended the King's College in Edmonton for 2 years then went to Michigan to finish my degree at Calvin College. I now have a B.A. in psychology and philosophy. I plan to work toward a BSW in the next few years.

Presently I work with Alberta Social Services, Child Welfare. We are responsible for investigating all reports of neglect, physical abuse and sexual abuse of children. It's been an eye-opening experience but there is a lot of room for being a helper, a servant to those in need. I am enjoying the challenge and hope to continue in this field for a while.

My favorite high school song? - "Paradise by the Dashboard Light" -Meatloaf
My favorite song today? - anything by Bruce Cockburn or the 10,000 Maniacs

My favorite memory? Contact Canada, of course!
The camaraderie and the carefreeness with friends I'll never forget.

My favorite memory since high school?
A 3-week study tour of Israel in January, 1988. A close second is my 2 spring breaks spent in Daytona Beach, Florida.

Plans for the future?
Convince someone to be my wife and continue to serve God in my job and in my family.

Jacqueline Chorney (Admiraal)

Four most important things that I have done in the past 10 years:

Was a branch manager of a downtown Trust Company for 5 years.

Got married on Dec. 6, 1986 and went to Hawaii.

Have 2 children, Racheal, born Nov 1, 1987 and Nicole, born Dec. 6, 1988.

Do a lot of travelling all over Alberta due to Ken's work.

Favorite high school memory:

A hard choice, either working on the school plays or cleaning ovens with Jenise in Home Ec. I can't decide.

Favorite Song in 1980: pretty much anything by Neil Diamond or Rod Stewart

Favorite Song now: "Baa, Baa Black Sheep"

Future Plans: Go back to school, buy a house.

Dolores Tjart (Groot)

Immediately after graduation I attended one year in the General Arts program at the UofA. Wanting a change in my life, I applied and was accepted to attend the Canadian Bible College in Regina, Saskatchewan. I planned on going for one year and ended up graduating from there in 1985 with a Bach. of Sacred Music, majoring in voice. I was involved in many musical groups and toured for the school for 3 summers.

It was at college that I met my husband Don, a native of Edmonton. We were married in December of 1985 and Don graduated in April of 1986 with the same degree. After college we moved to Scarborough, Ont. where Don is presently Pastor of Music Ministries at First Alliance Church. We have both sensed God's calling in full-time ministry and we enjoy it immensely.

Presently I am teaching voice and music theory. This is a lot of fun. I am also a mother to our daughter Erin Elizabeth, born to us April of 1988. Our second child is due to arrive in early March.

Both Don and I love being parents and are very satisfied with where we live and work. We look forward to the birth of our second child and to all that God has planned for us in the future.

Doug Leffers

4 most important things in the last 10 years:

worked and lived in B.C. for awhile

worked and lived in Baffin Island off and on from 1986 - 1989

acquired Carpenter Journeyman's papers and
started a framing company.

Fondest high school memory - Graduation

Favorite song in 1980 - "Stairway to Heaven" - Led Zeppelin

Favorite song in 1990 - "Midnight Rambler" - Rolling Stones

Future plans - to work overseas

Joyce DeRuiter (Witten)

A decade of living; a nameless decade of days and years yielding nothing that anyone except my own mom and dad would find important.

Definitely, the most life changing event was marrying John de Ruiter (1982), an enigma who becomes yet more mystifying as years pass. This resulted in my most deeply satisfying experience, that of becoming a mother to two priceless treasures, Naomi and Nicolas. Two other events worth mentioning are a four month stay in Holland (1980), and achieving a Bachelor degree in Theology. Future plans? Plans and John de Ruiter don't exist in harmony. I suppose it's a "bad word" for him. I plan to enjoy my kids to the fullest, possibly home school, and hopefully find time to resume oil painting. High school holds fond memories but from this distance it's a weary memory of a borderline anorexic, too serious for her time. But... I've changed. I eat and laugh lots.

Karen Schaly (Abma)

- 1) The four most important things that I have done in the past ten years are:
 - Graduating from ECHS
 - Meeting and marrying my husband, Henry.
 - My two sons Benjamin and Christopher
 - Travelling and living in different parts of Canada and the United States
- 2) My fondest high school memory would probably have to be Contact Canada.
- 3) One of my favorite songs in 1980 was "Breakfast in America" by Supertramp.
A favorite song now is "Storms in Africa" by Enya.
- 4)As far as my plans for the future , all I ask is to have a healthy and happy family.

Marianne DeBoer (Debbink)

1) The four important things for which I am most thankful:

- marriage to my husband Al DeBoer
- the blessing of 3 healthy children - Raymond, Antonia, Tracy
- being able to buy a farm near a Christian school
- traveling to Europe for 4 weeks with Al and seeing his grandparents and place of birth.

2) Fondest high school memory: having the opportunity to see parts of Canada on Contact Canada '80.

3) Have no particular favorite song. But I do enjoy Mickey & Becki Moore's especially "Love Song for Number Two" and "Little Boy". I enjoy Silverwind as well.

4) Plans for the future:

We have discussed many things, among them moving to a different country after farming here for awhile. But for now our strongest desire is to see fulfilled "I have no greater joy than to hear that my children are walking in the truth." There is much work to be done here in Canada!

Jackie Hofstede

1) I went to the King s College for 3 1/2 years and then finished up at Calvin College. I have received a Bachelor's of Education degree in Dec. '85. I then received a job for 1/2 year in Smithers, B.C. and have now taught in Houston, B.C. for 4 years.

2) My fondest memory of highschool is our Biology Trip and Contact Canada. When quite a few girls would always sing the "Long Distance" song on the bus.

3) 1980 song: Trooper - " Raise a Little"
1990 song - Bette Midler - "Wind Beneath My Wings"

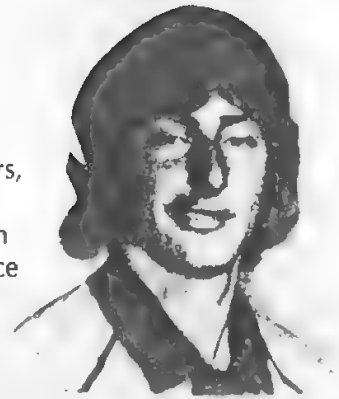

4) Travel in the summer holidays to either the Southern States or Europe. I also plan to continue teaching.

Randy VanKooten

After high school, I went full-time to the U.of A. for 4 years, where I started out in computing science, but eventually migrated over to math, and graduated in 1984 with a B.Sc. in Mathematics. Having achieved the goal of "getting that piece of paper", I managed to gain employment with Myrias Research Corporation, an Edmonton-based supercomputer manufacturer (yes, Carmen works there too). After 5 and a half years, I'm still with Myrias as an Applications Scientist. Without a doubt, the most important thing that has happened to me in the past 10 years was meeting Angela Huitsing in 1985. We were married in the summer of 1987.

Especially in the past 5 years, I've had the opportunity to do a fair bit of travelling, usually for my work or with Angie. The highlights would have to be my trips to Europe, especially 1986, when Angie and I did the typical, whirlwind, Eurail tour; a Hawaiian winter vacation in December '87 with two other couples; and, last September, when we went to Greece. Angie and I have decided to start settling down though, and this winter we purchased our first home. Now we look forward to our first child, who is due early this fall.

Contact Canada, of course, sticks out as my fondest high school memory. Particular memories include stuffing as many people as we could into my junky old Astre on the Bugs trip; sharing a locker with Ralph; and, I'd be lying if I said I didn't enjoy going to weekend parties with Brian Los -- usually at Jeff's, or Tim's, or Mike's, or Leo's.

Other than diapers and mortgage payments, we are planning to simply take things as they come.

Although I now enjoy classical music too, I don't think my taste in music has changed much. Elton John is still my favorite artist. But I think "Driver's Seat", by "Sniff an' the Tears", was my favorite song of 1980.

Bruce Smid

Four most important things that I (we) have done:

- traveled with Calvin, Phil, Rob & Fred to Toronto for Deb Veenstra's (VanKruistam) wedding. Wild times with 5 wild and crazy guys (1981)
- started concrete form rental business (1986)
- got married Aug. 16, 1986 - took train trip to Vancouver (1989)

Fondest High School memory:

- There are so many - biking from Beverly; Biology Trip; CC '80 Fund-raisers; but the one that stands out is definitely the Contact Canada Trip itself, along with all the events that took place on it.

Favorite Song:

- from High School is has to be April Wine's "Ooowatanite"; First song I heard in concert with Phil.
- from nowadays it is a toss up between Sinead O'Connor's #1 hit "Nothing Compares" and John Cougar Mellencamp's "Rave On".

Plans for the Future:

- No plans, too busy with the present.

Deb Van Kruistum (Veenstra)

Thanks for the invitation to the Reunion!
Sounds like a great time. Sorry I will not be there.

I've been married for 9 years (in August) and have 3 children; Kelsi 6, Skylar 4 and Sharlet 2.
We moved to Ontario in 1986. We built a house in the country in the summer of 1988.
We live in a small town outside of Waterloo, called Bamberg.
We've had our own construction company, building houses and pouring foundations, for 8 years.
I do the secretarial work and bookkeeping.
We've been to Montana, Vancouver, Edmonton, Mexico, Ohio, Michigan, and Pennsylvania since we've been married.

My fondest high school memory is piling as many people as possible into my dad's Ford and our trips back and forth to school with the Beverly gang.

My favorite song in 1980 : "The Logical Song" - Supertramp. Now it's: "He's Alive" - Dolly Parton

Future Plans - some courses and back to work when our children are in school . I'd also like to do volunteer work with the underprivileged.

Wishing you all the best with this great occasion!

Bev Vaartstra (Sandstra)

- After high school attended King's College for two years and UofA for one, then worked as a bank teller for three years.
- Married Brian Vaartstra in the spring of 1984 and have two sons, Matthew and Brent.
- Moved to Bloomington, Indiana, USA in April 1989 where Brian works at the university.
- At present I am a homemaker and enjoying my family.
- At some point I would like to go back to school part time and get my Bachelor of Arts.

Fondest high school memory - Driving around with Brian (Vaartstra) and Carmen listening to polka music.

Favorite Song then & now: I liked the group ABBA and now enjoy Christian rock music. ie. Connie Scott, Michael W. Smith

Brian Vaartstra

- after high school I went to the University of Alberta.
- Spring 1984 granted degree of Bachelor of Science (B.Sc.) with Honours in Chemistry.
- Married Bev Sandstra May 5, 1984 - Son Matthew Brian born March 17, 1987
- Spring 1989 granted the degree of Doctor of Philosophy (Ph.D.) in Organic Chemistry (University of Alberta)
- 1989 - 90 Postdoctoral Fellow, Indiana University, Bloomington, Indiana USA

- Son, Brent Levi, born Feb. 22, 1990.

Future goals: Research in advanced materials chemistry

Fondest High School memory:
Drafting classes with H. Huizinga

Favorite Song then: Dreamer, Supertramp
Favorite Song now: Hand of Providence, Michael W. Smith

Geraldine Pinkster (VanReenen)

Four of the most important things that I did:

- I went to NAIT and received an Honors Certificate in Secretarial Arts
- I got married to Rob Pinkster in 1987
- Had 1st baby, Jordan, in the summer of 1987
- Had 2nd baby, Trevor, in the summer of 1989.

My fondest memory would probably have to be the Grade 12 Biology Field Trip.

Sylvia VanderVeen (Peters)

1) The 4 most important things that have happened in the past ten years are getting married and having three girls.

2) Telling you my most memorable school memory is hard. Doing pranks to get out of skips and knowing that we weren't going to grade 11.

3) My favorite groups were Streetheart in 1980 and Phil Collins in 1990.

4) My plans for the future are to become rich and still have all the important things like family and friends with me.

Rob Messelink

The Messelink family consists of husband Rob, an employee of G&R Construction, wife Juliet (nee Van-Doesburg), and our newest member, Karly, born July 14, 1989.

Things haven't changed to much since high school. I still can't spell and this picture is about as late as my English major.

Diane Jaarsma

I studied Early Childhood Development at Grant McEwan for two years and worked in the daycare field for about four years. I am presently employed by the Public School Board in Abbotsford, B.C., where I work in a language-delayed classroom. It's a wonderful challenge for me! I also work part-time for Bethesda in a Group Home for Mentally Handicapped Adults.

In the past seven years I've done a fair bit of travelling - Australia, New Zealand, Tahiti, Hawaii, Mexico, Holland, Germany, Spain, France, Austria, Yugoslavia Greece, and the Western States.

I am enjoying life in Abbotsford very much with my boyfriend, Albert Kampman. We look forward to serving the Lord in anyway he wishes to use us in the future.

The following people did not send us information for this 10-year reunion book.

Wendy Berghout
Theresa Bruinsma
